Projects

🌐 Dan's Den [preview] [code]

- **Developed a full-stack food delivery platform** using the **MERN stack**, featuring user authentication, order management, and real-time data handling.
- **Integrated Stripe API for secure payments** and Cloudinary for image storage, ensuring smooth checkout and optimized media handling.
- Built a **responsive, interactive UI with React, TailwindCSS, and Zustand** for state management, delivering a seamless user experience across devices.

◎ ChatsWhat [preview] [code]

- **Built a real-time chat application** using **MERN stack** with **Socket.IO**, enabling instant messaging and live communication between users.
- Implemented **secure authentication and authorization** with JWT and bcrypt, along with MongoDB for persistent user and chat data storage.
- Designed a **responsive, modern UI** with React, Tailwind CSS, Zustand, and React Hot Toast, delivering smooth interactions and real-time updates.

❖ Portfolio Website [preview] [code]

- Built a personal portfolio using **React.js**, **Vite**, and **Tailwind CSS** to showcase projects and skills.
- Integrated **scroll-based animations (AOS)**, **SVG visuals**, and a **typewriter intro** for dynamic user experience.
- Designed a **responsive layout** optimized for both desktop and mobile screens.
