Summary

Full-Stack Developer experienced in architecting and deploying scalable, AI-driven web applications and real-time systems. Skilled in Next.js, Express.js, and database management (PostgreSQL/MongoDB), with a strong focus on integrating complex APIs, payment gateways, and secure authentication. Passionate about turning complex technical requirements into intuitive, user-centric digital products.

Skills

- Languages: JavaScript, TypeScript, HTML5, CSS3
- Databases: MongoDB, MySQL, PostgreSQL
- Frameworks: React.js, Next.js, Node.js, Express.js, Vite, React Native
- Libraries: Tailwind CSS, React Router, Redux, Zustand, Chart.js, Bootstrap, Axios, Prisma (ORM), Clerk AUTH, Cloudinary .
- Tools & APIs: RESTful APIs, JWT Auth, Git, GitHub, VS Code

Experience

Sansiddhi Softwares

Oct 2025 – Jan 2026

Full Stack Developer Intern

- Built dashboard with Recharts and led UI redesign to improve UX.
- Implemented responsive UI with Tailwind CSS, ensuring consistent experience across desktop and mobile devices.
- Optimized component rendering and state management using Redux.
- Implemented pagination, filtering, and sorting for large datasets.
- Developed RESTful API using Node.js and Express, handling CRUD operations.
- Developed mobile features using React Native with real-time location tracking.
- Implemented mock location detection logic to prevent GPS spoofing and ensure data integrity.

Projects

LedgerFlow API [[code](#)]

- Architected a secure FinTech backend using Node.js, Express, and MongoDB, implementing a double-entry ledger system to ensure strict financial data integrity and accurate balance calculations.
- Engineered ACID compliant fund transfers using Mongoose database sessions and idempotency keys, completely eliminating race conditions and the risk of double-charging users.

- Implemented robust stateless security with JWTs and bcrypt, designing a TTL-indexed MongoDB token blacklist for immediate, secure session termination upon user logout.

GenGenie [[frontend](#)] [[backend](#)]

- Architected a full-stack AI virtual fitting room using **Next.js 15** and **Express.js**, integrating **Google Gemini** and **Veo 3.1** models for high-fidelity image and video outfit generation.
- Engineered a robust relational database with **PostgreSQL** and **Prisma** to manage user creations, handling complex background polling and temporary file system routing to **Cloudinary**.
- Implemented secure authentication using **Clerk** and developed a monetized, credit-based billing system using **Stripe** webhooks for automated user account updates.

ReCodeDitor [[preview](#)] [[code](#)]

- Built a full-stack code editor with a freemium model, unlocking 10+ languages (Python, C++, Java) from a free JavaScript base.
- Community snippets hub for sharing code and user profiles with analytics for tracking most-used languages and activity.
- Architected with Next.js 15, Convex, and Monaco Editor, using Zustand for state management and Clerk for authentication.

Dan's Den [[preview](#)] [[code](#)]

- **Developed a full-stack food delivery platform** using the **MERN stack**, featuring user authentication, order management, and real-time data handling.
- **Integrated Stripe API for secure payments** and Cloudinary for image storage, ensuring smooth checkout and optimized media handling.
- Built a **responsive, interactive UI with React, TailwindCSS, and Zustand** for state management, delivering a seamless user experience across devices.

ChatsWhat [[preview](#)] [[code](#)]

- **Built a real-time chat application** using **MERN stack** with **Socket.IO**, enabling instant messaging and live communication between users.
- Implemented **secure authentication and authorization** with JWT and bcrypt, along with MongoDB for persistent user and chat data storage.
- Designed a **responsive, modern UI** with React, Tailwind CSS, Zustand, and React Hot Toast, delivering smooth interactions and real-time updates.

Education

- Bachelor of Science in Mathematics | Jai Hind College | CGPA: 6.8 | 2021-25
- HSC | Prakash College | 73.67% | 2019-2021
